Education

- **Indian Institute Of Information Technology Pune** *2022 - 2026*
  B.Tech in Computer Science with Honors in Artificial Intelligence Pune, India
  - **CGPA: 8.47**
- **Dr.KKr's Gowtham Happy Valley School** *2021-2022*
  CBSE Class 12 AISSCE Vijayawada, India
  - **Grade: 93%**

Projects

- **ContestClock — Programming Contests Tracker** *React | Redux | Express | Mongoose | AWS*
  - Built a CP Contest Tracker to track, set reminders, **register** bookmark **competitive programming** contests using **React**, **Tailwind**, and **FullCalendar**.
  - Integrated **Firebase** Google **Auth** with secure token verification , Developed **RESTful** APIs (**Express** + **MongoDB**) for personalized contest feeds and contest reminder management.
  - Implemented query filtering by **platform** and **contest date** (Today, Tomorrow, This Week), enhancing UX with **dynamic calendar** views and personalized contest feeds.
  - Implemented **scheduled** email reminders with **Resend** API, orchestrated via **Agenda.js** and backed by MongoDB job queues and Deployed on **AWS EC2**.
- **GitMate — Developer Networking Platform** *MERN | Redux Toolkit | JWT | Socket.io*
  - Built an end-to-end developer matchmaking platform with interactive swipe-based profiles powered by **Framer Motion**, **TailwindCSS** and **Redux**.
  - Implemented secure user authentication via **JWT**-based login/signup flows, managed tokens using HTTP-only **cookies** and custom middleware.
  - Developed a real-time **WebSocket** chat system with **Socket.IO**, handling dynamic room creation, message routing, and connection events.
  - Automated **match alerts** using **AWS SES** and Deployed on **AWS EC2** with custom **Nginx** reverse proxy setup and environment-secured deployment pipelines.
- **CryptoVERSE - Cryptocurrency Tracker** *React | Chart.js | RapidAPI | Axios | Redux Toolkit*
  - Cryptoverse is a cryptocurrency tracking app built with **React** and **Redux Toolkit**, providing real-time market data, price history, and news updates.
  - Integrated **CoinRanking API** and **Bing News API** via **RapidAPI** to fetch live cryptocurrency data and market trends.
  - Implemented efficient **state management** with **Redux Toolkit**, ensuring seamless data updates and performance. Used **Chart.js** for interactive price trend visualization and Ant Design for a modern, **responsive UI**.

Skills

- **Programming Languages:** C , C++ , JavaScript , Java , Python , SQL .
- **Web Technologies:** React.js , Node.js , Express.js , Tailwind CSS , Redux .
- **Database Systems:** MongoDB , MySQL , PostgreSQL .
- **Specialized Area:** Full-Stack Development , MERN Stack , Web Development, API Integration .
- **Other Tools & Technologies:** AWS , Docker , Linux , Git , GitHub .

Certifications and Achievements

- Solved over **350** problems in **DSA** across multiple platforms .
- Achieved a maximum rating of **1678** on **LeetCode**, placing in the top **14%** of users globally.
- Awarded an **Honors** degree in **Artificial Intelligence** for consistent excellence in Academics.
- The Complete **Full Stack** Web Development Bootcamp .
